6.	<p>District and County Councillor Forum (if any)</p> <p>District Councillor-</p> <ul style="list-style-type: none"> • Rock Fields Planning application would be likely to go to committee unless it is a straightforward refusal. • Boundary Review will take place which will look at number of councillors in relation to residents, it may be that a Community Governance Review will take place at the same time. <p>County Councillor – Report available on webpage and on Badsey Spar noticeboard when provided.</p> <ul style="list-style-type: none"> • WCC have suggested that using section 106 for Highways that 3 sets of barriers be removed from the path from Brewers Lane towards The Lankets. Cllrs unanimously agreed that the barriers were difficult to manoeuvre around but that they could not be completely removed but would support replacements. 						
7.	<p>Parish Council-</p> <ul style="list-style-type: none"> a. Land Committee Update- Nothing further to report at this time. b. Continuation of Newsletter- MiT expressed concerns about the commitment of councillors in providing information for the newsletter without having to be continually chased. MiT is happy to produce the newsletter but requires material. All councillors agreed that it is a valuable service that no-one wishes to stop. There have been 9 newsletters since its start but councillors need to give commitment that they will produce articles as an ongoing process not just at deadline. This was agreed. c. Response to comments regarding section 106 at Badsey Recreation Club: No further comments to add although it was agreed that rules regarding section 106 would be put in next newsletter for clarification.

	<p>Proposal: Proposed change of use of land to site ten static caravans with access track and package sewage treatment plant.</p> <p>Parish Council Decision: "Badsey & Aldington Parish Council objects to this application for the following reasons: Access to the area is along a single track, the use of which has not been agreed with the owner The access onto Offenham Road has insufficient visibility and is therefore in a dangerous location. Councillors have concerns that this is a 'backdoor' application that will see the holiday lets change into residential This will have a detrimental effect on the landscape as there is inadequate screening for both visibility and noise This is in close proximity to sewage treatment plant to Badsey Brook which could result in pollution in the event of overflow."</p> <p>Wychavon Decision:</p>

Overdevelopment of the site and too much development between Aldington and Offenham Councillors considered that if the original application had been for 41 then it would have been unlikely to be approved."</p> <p>Wychavon Decision:</p>

- d. **Correspondence from Landform Development-** Email has been received as a result of a councillor identifying developers looking at land at Brewers Lane. They advised that they were looking at a larger development from B4035 and wondered if PC would be interested in meeting them to discuss their ideas/proposals. PC unanimously agreed that they would **not** be interested in meeting or discussing further.
- e. **Correspondence received from Christchurch-** Christchurch have submitted an application for consideration on Sands Lane, Badsey but have been advised that it is not suitable. They believe that their chances would be improved if they offered a small amount of the land to PC for allotments in return for the PC supporting the application. It was unanimously agreed that the PC would not consider this.
